- Engage with national-level external stakeholders to provide scientific and medical perspective.
- Deliver high quality presentation of scientific and medical data to healthcare professionals in identified settings.
- Provide medical counsel and guidance to cross-functional teams medical input and expertise for other functions.
- Support the market access strategy through delivery of medical content and exchange with stakeholders.
- Support the execution of congress plans and MSL activities in collaboration with other internal functions.
- Provide updates to company leadership and internal stakeholders on field medical affairs related plans and metrics.
- Assist in the training and development of Sales teams
- Establish a strategy, objectives and key processes that are aligned to the overall business strategy

REQUIREMENTS:

- Advanced degree with health science background (PharmD, MD, PhD or OD) preferred
- 5+ years' experience in Medical Affairs or related fields in the ophthalmic pharmaceutical space preferred, but not required
- In-depth knowledge and understanding of the pharmaceutical commercialization process and data generation required
- Project Management experience required
- Demonstration of successful working relationships with external stakeholders / KOL's
- Ability to think critically and work independently under tight deadlines.
- Exceptional communication and presentation skills
- Ability to manage multiple projects simultaneously
- Strong organizational and analytical skills
- Ability to maintain a high level of confidentiality, professionalism, and adaptability.

BENEFITS:

- Competitive pay structure
- Health Insurance
- Equity Incentive Plan
- 15 days paid time off per year
- Approximately 9 Holidays & 2 Floating Holidays
- 401k Savings Plan

TYPICAL CAREER OPPORTUNITY:

Medical Affairs Director
